SPRING 2010

WE ARE OPENING SUMMER 2010!!

To CMMC Supporters,

We Charter Members and Capital Fund donors have done our work. CMMC has a lease for the Operations Building and work is underway by Rick Roy Construction. CMMC has raised the funds to renovate the building to meet standards for health and safety and house our museum exhibits and education center.

Now we are turning our energies in a new direction as we prepare to open our museum to the public this summer. To realize this exciting vision, we require a new commitment from our members and friends. CMMC is requesting contributions to our Annual Fund that will allow the museum to flower. Here is what your contribution will make possible:

- Provide ongoing operating support for the Center.
- Keep the museum staffed with volunteers throughout the tourist season.
- Enable us to host visits by school children and special programs throughout the year.
- Hire staff as necessary to manage the work load as the activity level of the center ramps up.

Our Annual Fund is underway and we need your help to take CMMC in its new, exciting direction. You can make a contribution by going to our website www.chathammarconi.org or use the form on reverse side of this Marconigram.

RICK ROY
CONSTRUCTION
508.432.6840

CMMC is ready to go with a contractor set up to begin making this vision real. Rick Roy, a long time Cape resident who grew up in Chatham, started Rick Roy Construction in 1995. He has established a reputation for building quality custom homes, remodeling, restoration, and commercial construction. Rick Roy was chosen for his experience and expertise in navigating the complexities of our project. A recent project of Rick's was recognized in 2009 with a Chatham Historic Preservation Award.

Look for sign where CMMC is renovating the WCC Operations Building into a museum and learning center.
